

Core Courses

Preparing the Ground

Transition Launch

Packed with imaginative ways to delve into the practice of Transition, this 2-day course provides practical tools and know-how to set up, run, and grow a successful Transition Initiative.

2-day Course

- Have an experience of Transition.
- Learn about the early stages of Transition.
- Experience a personally deepening journey into the inner dimension of Transition.
- Meet other people involved in Transition initiatives and share experiences, difficulties and successes.

Sustaining Momentum

Transition Thrive

Congratulations! Your TI is up and running, but it's not all plain sailing. This 2-day course helps you to discover opportunities to take your initiative to the next level.

2-day Course

Learn how to:

- Reach out to the concerned but not yet involved.
- Fund your initiative.
- Create jobs in the local, green economy.
- Develop effective communication strategies.

Skill-building Courses

Inspiring Others

Give a Transition Talk

Acquire skills for effective public speaking enabling you to communicate why we need to do Transition, the mechanics of it, and some of the subtler facets of inner transition.

1-day Course

Provides you with:

- A solid presentation that you can adapt to your own style.
- A set of facts and figures to underpin your talk.
- An understanding of how to communicate some of the deeper aspects of Transition.
- A new level of confidence to deliver presentations with flair, authority and maybe a bit of humour too!

Working in Groups

Healthy Collaboration

This 2-day course focuses on effective and enjoyable ways to work in groups, including crossing stony ground without losing respect and trust. Can be run as a 1-day or a 2-hour introduction.

2-day Course

Learn how to:

- Create systems for teams to work effectively together.
- Develop a fair and enjoyable atmosphere in which to work.
- Utilise diverse perspectives as an advantage instead of a problem.
- Achieving goals and keep your teams healthy and effective.
- Manage conflicting needs and paradoxes, both within and outside of the team.
- Develop the skills and mid set to cross stony ground without falling out with each other.

Relocalising Livelihoods

Collective Entrepreneurship

How can we work with collaborative forms of leadership, innovation, fundraising and community building to strengthen our businesses and other collective enterprises?

2-day Course

Learn about:

- The U-process: a breakthrough methodology for collaborative innovation that accesses the wisdom needed to create the future that wants to emerge.
- Social Media for Social Enterprise: how to best use social networking tools to create business possibilities, enhance community building and to stimulate inspired actions.
- Diversified Funding: Rethinking the way we finance our projects and initiatives. Blending traditional ways with collaborative efforts that make full use of the internet and new social media tools.
- Community Enterprise models, from collaborative consumption to the revival of cooperative.
