Transition Training is a self-organizing and resilient training organisation supporting individuals and communities in adopting the Transition model and methods.

We do that by:

- Spreading the adoption of Transition principles and practices, leading to the foundation of new initiatives.
- Supporting Transition Initiatives at each stage of their evolution from taking root, to the achievement of sustainable, resilient communities.

We deliver high quality, practical, and inspiring training in over 20 countries worldwide. The first Training for Transition was held in Oct 2007 in Totnes, and there are now Transition Trainers in Canada, USA, New Zealand, Australia, Holland, Italy, Sweden, Belgium, Norway, Germany, Austria, Denmark, Ireland, China, Brazil, Scotland, and Japan. We have also run courses in Hungary, Spain, Portugal, Chile, Costa Rica, Serbia, France, and Colombia.

Our trainings are centred around:

- Welcoming diversity of background and opinion.
- Weaving together theory and practice, information and experience, and ‘inner’ and ‘outer’ Transition.
- Valuing and responding to participant input; trainers sharing information while being non-prescriptive.
- Demonstrating some of the core qualities of a Transition process such as holding contrasting energies, or working with complex and multi-dimensional systems.

Our trainers have a background in training or facilitating and embody and modelling Transition practice. We meet regularly, share experiences, and learn from those who are actively involved in and living Transition. Courses are offered at as low a cost as we can afford, and some concessions are available. Please email training@transitionnetwork.org for more information.

Are you:

- Just starting up a Transition Initiative?
- Involved in a TI and working on next steps?
- Wanting to pick up useful tips... what's worked and what hasn't?
- Interested in meeting like-minded people involved in Transition near to you?
- Looking for a way to express your personal response to our environmental and cultural crisis?

“Great to have facilitators with so much experience and passion for Transition. Very well planned, facilitated, covering a vast range of material. Thank you, I feel more confident and much clearer about my local transition project and my own role.”

Totnes participant, 2011

“At the end of the training course we weren’t told to go out and create a ‘model’ Transition Town. Instead, the trainer said ‘take what you have learned and make it relevant to your community. We need diversity... we’ll be the geese honking you on your way’.”

Transition Training participant, 2011
